(i) A clause may be incorporated in the relevant Rules/Bye-laws/Regulations of the autonomous bodies that proposals relating to employment structure i.e. adoption of pay scales, allowances and revision thereof and creation of posts above a specified pay level would need the prior approval of the Govt. of India in consultation with the Ministry of Finance, Department of Expenditure;

(ii) In the case of larger autonomous bodies a suitable clause may be incorporated in the relevant Rules/Bye-laws/Regulations that a representative of the Ministry of Finance/Integrated Finance Division of the Ministry concerned should be nominated to the Executive Council of the Autonomous Organization. The choice of the nominee would be made in consultation with the Ministry of Finance; and

(iii) In the autonomous organizations referred to in (i) above, a provision would also be made if the Rules/Bye-laws/Regulations that in the event of disagreement between representative of the Ministry of Finance and the Chairman of the Governing body of the
Autonomous Organization on the financial matter beyond the delegated powers of the Ministry/Department of the Govt. of India the matter may be referred to the Minister of the administrative Ministry concerned and the Finance Minister for a decision.

3. Ministries/Departments are requested to take immediate action to incorporate the necessary amendments suggested in the preceding para in the Rules/Bye-laws/Regulations of the Autonomous Organizations under their administrative control under intimation to this Ministry. They are also requested to ensure that before a new autonomous body is formed, the Rules/Bye-laws/Regulations concerning financial matters are finalized in consultation with this Ministry.

*******
Consultancy

Different aspects of consultancy, including the pattern of distribution of honorarium will be decided by the duly constituted committee of NIPGR on case to case basis.

Collaborative Research

Collaborative project is a joint endeavor. Thus while costing NIPGR's inputs for a collaborative project the intellectual fee should be included in notional project charges. As the client may bear only a part of the NIPGR’s project expenses, the laboratory should endeavor to ensure that the balance of project charges are recovered by earnings from licensing the R&D results/intellectual property to the collaborator/third party.

Composite Projects

Some projects are composite in nature and envisage diverse inputs of NIPGR. These may include consultancy, technical services, contract R&D, etc. Such type of projects can, for purposes of NIPGR costing/accounting, be split into appropriate contract research, consultancy and technical services components; and approval of competent authority be obtained for each component indicating the overall project profile.

1. Consultancy by NIPGR

Definition & Scope

The laboratory should ensure that owing to financial accruing to staff members from consultancy work, attention is not diverted from R&D related activities. A proper balance of the manpower and other resources to be deployed on R&D activities, consultancy and technical services should be decided by the committee constituted by NIPGR.

To facilitate the operation of ‘consultancy’ services two categories of consultancy, viz. (a) Advisory Consultancy (b) General Consultancy may be demarcated each with its own scope definition, ceiling and pattern of honorarium.

All consultancy services in NIPGR shall be institutional. Consultancy shall be in an area of expertise of the laboratory, preferably its thrust areas. For purpose of definition there shall be two categories of consultancy, viz:

A) Advisory Consultancy

Wherein the services would involve scientific, technical, engineering or other professional advice, provided to a client purely on the basis of available expert knowledge and experience of individual(s), rendered outside the NIPGR and not envisaging use of any facilities of the laboratory (including experimental, informational, computational etc.), and also not involving any kind of survey, detailed study or report preparation/submission.
B) General Consultancy

Wherein the services shall comprise scientific, technical, engineering or other professional advice/assistance based on the available knowledgebase/expertise of the laboratory, and envisaging only minimum use of laboratory facilities for essential experimentation needed to meet the objectives of the consultancy assignment.

General consultancy may inter-alia cover:
- Preparation of literature survey/feasibility studies, state of the-art/project/technology/forecasting reports;
- Interpretation and validation of test results and data, risk and hazard/environment impact analysis etc.,
- Design engineering,
- Assistance in erection, commissioning, operation, fabrication/tendering and purchase of requirement, trouble shooting, productivity improvements, pollution abatement/control measures, energy conservation, waste utilization, technology assessment/evaluation.

Any consultancy assignment which does not strictly fall under the category of Advisory Consultancy, shall be taken up as General Consultancy. The competent authority for approving the consultancy shall have the power to decide on the category of a particular consultancy assignment.

Approvals for projects will be accorded by the competent authority may be based on recommendations by a committee constituted by the competent authority of NIPGR.

Approvals for contracts for consultancy services of a minor nature, formal agreement on a stamp paper may be dispensed with and the terms and conditions settled through exchange of letters. However, the terms and conditions should include a disclaimer on responsibility of the laboratory for the advice/recommendations given in the consultancy. In case the head of the institute/competent authority feels that an agreement would be technically and legally useful, the party may be asked to enter into a legal agreement.

Costing of Consultancy Projects

It is feasible to make realistic estimates of inputs for a consultancy project. The amount to be payable by the client seeking consultancy will be decided by a duly constituted committee by the Director, NIPGR. While fixing the consultancy charges, estimated expenditure on various components including raw materials, consumables, equipment, contingency, travel expenses etc. may be taken into account. Taxes as applicable will be payable by the client as extra.

Record of deployment of resources for a consultancy project, especially the manpower, should be separately and carefully maintained and the resources deployed should by and large be in conformity with the approved estimates.
**Honorarium for Consultancy Work**

Honorarium is payable to the team of consultants and S&T and supporting staff of NIPGR. In case there is no staff under S&T and supporting staff associated with a consultancy project the share of honorarium earmarked for this category shall then go to the team of consultants.

The pattern of distribution of consultancy honorarium for **general consultancy** work taken up may be as follows:

<table>
<thead>
<tr>
<th>Source</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>NIPGR</td>
<td>50%</td>
</tr>
<tr>
<td>Team of consultants</td>
<td>35%</td>
</tr>
<tr>
<td>S&amp;T and supporting staff</td>
<td>10%</td>
</tr>
<tr>
<td>NIPGR welfare fund</td>
<td>5%</td>
</tr>
</tbody>
</table>

The pattern of distribution of consultancy honorarium for **advisory consultancy** may be as follows:

<table>
<thead>
<tr>
<th>Source</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>NIPGR</td>
<td>50%</td>
</tr>
<tr>
<td>Team of consultants</td>
<td>45%</td>
</tr>
<tr>
<td>NIPGR welfare fund</td>
<td>5%</td>
</tr>
</tbody>
</table>

The 'Team of Consultants' shall comprise only such staff members who provide intellectual inputs to the specific consultancy work while 'S&T and supporting staff' shall generally include the remaining regular staff (faculty, technical, administration, finance, store and purchase, and services).

If needed, apportion of distributable amount can be done by the competent authority on case to case basis.

The amount will be distributed after successful completion of the consultancy assignment.

In case of Advisory Consultancy projects for which the duration of the contract is more than a year, honorarium may be distributed annually, provided the amount due for the respective year has been received from the client.

**Ceiling on Amount of Honorarium:**
The maximum amount of honorarium receivable by an individual in a financial year shall be limited to Rs. 5,00,000 (Rupees five lakhs). The amount of honorarium receivable by an individual during a financial year shall be computed for all the consultancy projects completed during the particular year.
financial year and the amount, if any, in excess of the prescribed ceiling, shall not be carried over to the following financial year, but shall be credited to the NIPGR Welfare Fund.

Other Aspects
I. TA/DA/per diem allowances
The laboratory shall be free to negotiate on TA/DA for the staff deputed outside the laboratory on the project work in respect of assignments from non-govt. clients only. The TA/DA and per diem allowances should not be less than that prescribed by NIPGR.

II. Guidelines for work/contracts with foreign clients

Work taken up for foreign clients shall continue to be negotiated on a case to case basis, as per present procedures stipulated in the extant guidelines.
