

# One Day International Symposium on “Recent Trends in Bioinformatics & Big Data Analysis”

08 November, 2019

## **About symposium**

The Sub-DIC facility at NIPGR periodically organizes training/workshops/symposiums/seminars in Bioinformatics. This time we are organizing a symposium on “Recent trends in Bioinformatics and Big data analysis”, specially designed for the young researchers, faculty, and professionals working in the area bioinformatics, genomics, machine learning, and big data analysis. We have specially invited the young scientists to deliver the talk, discuss their work and interact with the audience.

### **Venue: --**

[Auditorium](#)  
[National Institute Plant](#)  
[Genome Research, Aruna Asaf](#)  
[Ali Marg New Delhi-110067](#)

### **Topics: --**

- Single Cell Genomics
- Machine learning and Deep Learning
- Genomics for Drugs discovery
- NGS Data analysis
- Genomics in Agriculture
- Bioinformatics in Cancer
- Genomics and Bioinformatics for Plants
- MetaboGenomics
- Metabolomics
- Advancements in tools development
- Database development

### **Speakers: --**

- Prof. Alok bhattacharya, India
- Prof. B. Jayaram, India
- Prof. Andrew M. Lynn, India
- Dr. Debasis Chattopadhyay, India
- Dr. Manoj Bhasin, USA
- Dr. Debarka Sengupta, India
- Dr. Bharat Panwar, USA
- Dr. Kumardeep Chaudhary, USA
- Dr. Gaurav Ahuja, India
- Dr. Shailesh Kumar, India

### **Who Can Participate: --**

Students (P.G., Research Scholars & Engineering Graduates), Academicians and Researchers from University, Government departments, Colleges, Research Institutes and Industries.

### **Registration Details: --**

Registration Fee- 1000/-

*Online Application at NIPGR website*

Registration Start— September 26, 2019

Last Date: 05-Nov-2019

### **How to Apply: --**
